Funding record for selected projects (management & development)

- **SoMeLab (2018-2020)**. A DKK 930.000 grant from The Carlsberg Foundation to create a new computational social science lab at the Center for Information and Bubble Studies, UCPH, in order to develop and deploy innovative experimental paradigms for investigating various social phenomena on the internet and in social media, such as The Wisdom of Crowds-effect, pluralistic ignorance, majority-illusions, informational cascades, polarization, echo-chambers and related social bubble phenomena.
- **Videnskanlyen (2017-19)**. A DKK 380.000 grant from the Danish Ministry of Children and Education, tips- og lottomidler, 2017 to develop and produce eight animated learning videos about

atoms and their fission and fusion processes for teaching physics and chemistry in primary schools.

- **Podcasts for Poder (2013-15).** A DKK 94.600 grant from the Danish Ministry of Children and Education, tips- og lottomidler, 2012 to develop a series of podcasts for preschool children, learning about numbers and letters in the alphabet.  
- **ChangeMasters (2006-2007).** A € 1.3 mio. grant from the EU (e-Ten) on validating and customizing an edutainment services for change and innovation management. The project was collaboration between eight European partners. I was a Work Package leader.
- **Laboranova (2003-2006).** A € 7 mio. Grant from the European Union (IST, call 6) on creating a collaboration environment for strategic innovation. The project was a collaboration between 19 European partners. I was the project coordinator (and got a burnout).
- **Hazardcards (2004).** A DKK 60.000 grant from the Danish University of Education (DPU) for a combined debating game and art piece. Hazardcards communicates science and technology by presenting known and unknown technological accidents in a new and challenging way. 
- **Scope (2006-2007).** The project aimed at creating an assistant tool for searching for information on the internet.
- **Exhibit Øresund (2006-2007).** Project Management in collaboration with the IT-University. Exhibit Øresund was an EU-funded project to create innovative ideas for science communication within selected universities in the Øresund region.
- **Open Cards (2006-2007).** Open Cards was an open card game creation format, which could be used in schools as an alternative form of presentation and reflective analysis of any subject.
- **World Class Math and Science (2001-2004).** The project intended to identify new concepts in education and greater flexibility in teaching methods aimed at improving general education standards.
- **Drabssag Melved (Homicide) (2003).** A ~DKK 400.000 grant from the Danish Ministry of Education on developing an IT-supported role-playing game for primary school classes.
